

### **Small Animal Vet Required**

Due to practice expansion we are looking for a motivated, enthusiastic small animal vet to come and join our friendly 7 vet team. Your time will be split between our busy hospital and one of our branch surgeries. We are based in North Essex, very close to Cambridge, the M11 for quick access to London and Stansted Airport.

We are a small animal independent practice and we cover our own OOH with a dedicated night nurse team. 1 in 5 on-call weekend rota. Brilliant support staff, cases worked up to a high standard, case continuity and specialisation encouraged. CPD funded as well as certificates. Accommodation is available if required. We ideally looking for a vet with at least one years experience to start around April/May 2019.
